• Classroom Management • Museum Operations • Exhibit Design / Fabrication
• Academic Admissions / Administration • Public Speaking / Lecturing
• Gallery Direction / Management • Art Handling / Installation / Team Management

Hello world,

I'm a passionate self-taught web and software developer as well as an experienced fine arts professor, art history lecturer, gallery manager, art handler, museum operations specialist and exhibit fabricator. My wife and I are having our first child and I am excited to be exploring new opportunities for full-time employment related to part or all of my work experience.

I have excellent skills working on small and large teams and am extremely confident in my ability to quickly master any programming stack or set of responsibilities. If you know of any opportunities where I might apply my passion and experience to a new team or company please don't hesitate to contact me or forward this document along. I am available to begin work immediately and would love the chance to further discuss my qualifications in person.

Thank you in advance for your time!
